

I oppose any station (like Fox) having too important possession of the public's airways. Keep it at 35%.

Americans have to be knowledgeable enough to vote and that means hearing both sides of issues. Fox is well known for having their goal to be "power" in america and not necessarily having a democracy. Fox fits right in with communist states, nazi states, and dictator states. propoganda is what they practice (which is a disservice to being a true American).
